

REMARKS

Claims 18-37 are pending.

Claim 20 is amended, hereby, to correct an obvious typographical error. The trademark symbol "®" appeared in the claim, which is corrected hereby to "(r)".

Applicant, also, wishes to point out a clerical error in the remarks of the previously filed amendment.

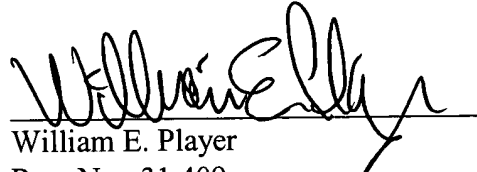

Reconsideration was requested with respect to the claim rejections under 35 USC. § 112, ¶ 2, in view of the changes to claim language represented in claims 18-37, and particular attention was directed to claims 27, 28, 35, and 36. However, attention was intended to be directed to claims 27, 28, ~~36~~, and 37. The inadvertent error is regretted.

Favorable action is requested.

Respectfully submitted,

JACOBSON HOLMAN PLLC

Marked Up Version Of Amendments

20 (amended). The method according to claim 18 wherein, in calculations of the theoretical distributions $P_1(\mathbf{n}_1), P_2(\mathbf{n}_2), \dots$, an optical spatial brightness function ~~$B(\mathbf{r})$~~ $B(\mathbf{r})$ is accounted for by a separately determined relationship between brightness B and volume elements dV .
